These shall include the volume or weight of the chemicals and the nature of their packaging. Material Safety Data Sheets for each chemical or reagent shall be sufficient for this purpose.

## REGULATIONS FOR THE APPROVAL OF FIELD TESTS FOR DETECTION OF DRUGS

D. This approval will require at least 120 days from the receipt of the written request and all needed materials from the manufacturer.

E. The ~~Division~~Department will use commonly encountered "street drug preparations" to examine those field tests for approval. In order to be approved, the field test must correctly react in a clearly observable fashion to the naked eye, and perform in accordance with manufacturers' instructions and claims.
